Our Vision

Salvaging the nature to meet human needs and aspiration, while fulfilling the necessary ecosystem function and ensuring sustainable environment.

Our Mission

1. To reduce carbon concentration in the atmosphere through landscape restoration, advocacy, and awareness programs to conserve the integrity and diversity of nature.
2. Bringing modern techniques to farmers to promote climate-smart agriculture that will improve farmers yield while promoting soil health, and to ensure the sustainable use of biodiversity.
3. To promote education in biodiversity conservation, ecosystem greening, sustainable food production, and policies in these sectors

Global Perspectives of what we do?

- the Convention on Biological Diversity (**CBD**), the United Nations Framework Convention on Climate Change (**UNFCCC**), and the United Nations Convention to Combat Desertification (**UNCCD**).
- Our work are inline with the objectives of the three Rio Conventions and the Sustainable Development Goals **2, 6, 13, and 15**.
